SUMMARY OF QUALIFICATION

- With over 4 years of experience as a Software Developer, I possess a strong understanding of the Angular framework and its ecosystem. I have successfully developed and maintained responsive and interactive web applications, following best practices and coding standards.
- My proficiency in Angular includes creating modular components, implementing routing and navigation, and integrating with backend APIs. I also have extensive knowledge of Angular features like dependency injection, data binding, and reactive forms.
- Additionally, I have collaborated effectively with cross-functional teams and demonstrated excellent verbal and written communication skills. I am experienced in Java and have a solid understanding of its syntax and object-oriented programming concepts. I have a proven track record of writing clean and readable code while adhering to coding standards.
- I am skilled in UI (User Interface) and UX (User Experience) design, creating wireframes, and designing applications for various platforms using HTML5, CSS3, and JavaScript. I have experience in working on UI designs for cross-platform devices and providing estimates for client requirements. Furthermore, I possess effective time management skills, enabling me to handle multiple projects simultaneously.

TECHNICAL COMPETENCIES

OPERATING SYSTEM: Windows, Linux

TOOLS & IDES: Visual Studio Code, Sublime, GitHub, JIRA, Eclipse, Docker, Jenkin, Postman, Sketch, InVision, Microsoft office suite

LANGUAGES: HTML5, CSS3, SASS, BOOTSTRAP3/4, jQuery, JAVASCRIPT, ANGULAR, REACT, C, C++, CORE JAVA, RESTFUL APIS, UI/UX design, QA Testing and Debugging

DATABASES: Oracle, My SQL

SERVERS: Apache Tomcat

EXPERIENCE

FULL STACK DEVELOPER, SUNFLOWER LAB SOLUTIONS, INDIA

2019 - 2023

- Developed and maintained full stack Web Applications using Angular (V8) and Java.
- Developed fully functional responsive prototypes based on Business Requirements using HTML/HTML5, CSS3, JavaScript and jQuery.
- Proficient in working with both Reactive forms and custom driven forms and also Utilized custom directives to extend the functionality of Angular Template, enhancing code reusability and maintainability. And also custom pipe to transform and manipulate data, improving the user experience.

Aayushi Desai

115, Cranston Avenue, Cambridge, ON, N1T 1J7 ,Canada

- Designed and developed **RESTful APIs** for seamless data communication between front-end and back-end systems.
- Developed interactive and user-friendly guided tours, providing step-by-step instructions and highlighting key features.
- Implemented common filters in applications to enhance data filtering and search functionalities.
- Implemented secure authentication mechanisms, including **two-factor authentication**, to enhance application security and protect user data.
- Conducted **unit testing, integration testing, and debugging** to ensure application quality and performance.
- Maintained brand standards under company guidelines and consulted and documented UI best practices and code standards and participated in projects in all stages of the product life cycle.
- Managed Web and interactive communication projects from initial consultation through successfully launch with ability to handle various projects at the same time and complete them by given deadline.
- Participated in Agile ceremonies, including daily stand-ups, sprint planning, and retrospectives.

EDUCATION

Bachelor Of Computer Engineering

2015 - 2019

Gujarat Technological University, Vadodara- India
